### **PERSONAL STATEMENT**

I am an entrepreneurial, strategically and future-oriented person with an international focus. Social and communicative. My interests include Smart Cities, innovation strategies, Digital Transformation, Internet of Things, Big Data and Open Data and mobile technologies.

### **WORK EXPERIENCE**

**04/2017 – Now**                      **Projectleader Business Development**

*[RMC B.V., Rotterdam & Amsterdam, the Netherlands](#)*

- Analysing the IT-landscape and providing strategic recommendations to position RMC as a Mobility-as-a-Service provider.
- Coordinating multiple IT-related projects to enable the transition to a fleet of electric vehicles and to develop the charging infrastructure.
- Collaborating with multiple software suppliers to optimise the software installations.

**05/2016 – 10/2016**                **Intern**

*[Opentrends, Barcelona, Spain](#)*

- Analysing the business opportunities of expanding the existing Internet of Things platform Sentilo to new markets. More info: <http://www.thingtia.cloud>.
- Developing the website and presentations for the management team.

**02/2011 – Nu**                        **Member of the support and development team (voluntary)**

*[e107 Content Management System](#)*

- Providing support to the users of the platform by answering questions and problem solving.
- Communicating between end-users and developers through Github, blogs, forums, and social media.
- Contributing to the technological development of e107.

**08/2008 – 06/2013**                **Owner**

*[OSProvider - Webhosting & website development services](#)*

- Offering of webhosting services, advising on and supporting the development of websites and the application of modern website technologies.

### **EDUCATION**

**2015 – 2016**                        **Master of Science in IT & Strategic Management**

*[Universitat Pompeu Fabra - Barcelona School of Management, Spain](#)*

Focus on aligning IT and Business through trend analysis, case studies, a curricular internship and numerous contact opportunities with the business world such as company and congress visits. Master thesis on the differences between Barcelona and Amsterdam in their approach to Smart Cities and its effect on the ability to upscale smart city pilot projects.
